## OUTLOOK AND STRATEGY

**Market Review.** The BPI Government Bond Index increased by 1.21% in August as yields declined by 13.1 basis points on average. Peso-denominated government bonds were more actively traded on this month compared to that of June, averaging Php8.57 billion per day. Trades were mostly observed on the liquid securities such as the RTB 3-9, RTB 5-11 and FXTN 20-17.

Both FXTN auctions scheduled for the month were awarded, given investors' preference for relatively shorter-tenored securities. The first auction, a re-issuance of the 5-year FXTN 5-75 (coupon of 5.500%), was fully awarded at an average yield of 5.902%, higher than the 5.592% average it was awarded at last May. Bids totaled Php24.5 billion against the initial offer of Php15 billion. The second auction, a reissuance of the 3-year FXTN 3-23 (coupon of 4.250%), was awarded at an average yield of 5.136% compared to the 4.703% average it was awarded at last May. Bids amounted to Php26.3 billion, indicating healthy demand for the paper.

Inflation for the month of July climbed further to 5.7% (using 2012 as the base year), higher than the 5.2% posted in June and beating the consensus estimate of 5.5%. This figure was also towards the upper limit of the BSP's projected inflation range of 5.1%-5.8%. The rise in consumer prices continued to be driven by rising costs in food and non-alcoholic beverages. In other news, the country's GDP grew by 6.0% YoY for 2Q18, missing the consensus estimate of +6.6% YoY. Economic growth was driven by a surge in investment spending, while expansion in private consumption disappointed. The net exports figure weighed on growth as imports significantly increased during the quarter. The BSP Monetary Board meeting held within the month concluded with a 50 basis point interest rate hike as expected by the market. However, the central bank assured investors that they would vigilantly monitor economic data so as to determine the appropriate monetary policy response moving forward.

**Fund Performance.** The Fund underperformed its benchmark by 66 bps in August.

**Fund Strategy.** The Fund will continue to invest in a diversified mix of securities primarily issued by Philippine corporations.
