Net Asset Value Per Unit

Net Asset Value USD 98.09 Million
NAV Per Unit (NAVpu) USD 244.27
Par Value USD 100.00

Fund Manager's Report

Monthly Commentary

Geopolitical tensions in the Middle East and North Africa (MENA) continued to be in the headlines which caused investors to shun away from risky assets such as emerging market bonds. In the European region, Spain's sovereign credit rating was downgraded by 1 notch to Aa2 by Moody's Investors Service while Portugal seemed likely to need a financial bailout after their parliament rejected the proposed austerity measures. The earthquake that struck Japan and the subsequent nuclear crisis only added to the risk aversion of investors.

On the domestic front, the 2010 full-year budget deficit of the Philippines was released in March and it came in at PhP 314 Bn which was lower than the government's target of PhP 325 Bn. This was looked upon as a positive development by investors as the 5-year Philippine credit default swap spreads narrowed by 7 points to the 135 level. However, Philippine dollar-denominated bonds continued on its downturn as prices fell by 1 price point on the average or by 0.8% while yields rose by 7 bps.

Earlier fears on inflation were justified as the CPI figure was reported to be at 4.3% year-on-year in February, higher than the 3.6% posted in the previous month. In response, the Bangko Sentral (BSP) raised its benchmark overnight rates by 25 bps in its meeting held last March 24, its first policy rate hike since August 2008. The BSP has now joined other central banks that have hiked interest rates in the Asian region.

Strategy

The Fund reduced duration in the month of March to 3.49 from 3.66 in February. The Fund also purchased new Philippine corporate bonds to further diversify its portfolio. These new additions to the Fund are expected to reduce its overall volatility to the price fluctuations of Philippine sovereign bonds.

Fund Facts

Launch Date	August 30, 1994
Structure	Unit Investment Trust Fund
Fund Type	Medium Term Bond Fund
Client Suitability	The Fund is suitable for investors with at least a moderately conservative risk profile.
Base Currency	US Dollar

Risk Characteristics

Risk Measures	Past 12 Months			
	Mar 31, 2011	Low	High	Average
Duration	3.49	2.75	3.72	3.36
Volatility, Past 360 Days	1.53%	1.44%	1.54%	1.51%
Sharpe Ratio, Past 360 Days	2.65			

Duration measures the sensitivity of NAVpu to interest rate movements. As interest rates rise, bond prices fall. The higher the duration, the more NAVpu will fluctuate in relation to changes in interest rates. Volatility measures the fluctuations in NAVpu. The higher the number, the higher the potential gain or loss. Sharpe ratio evaluates reward-to-risk efficiency. The higher the number, the higher the reward per unit of risk.

Risk Disclosure

The Fund is suitable for investors who take medium to long-term views. As a marked-to-market UITF, the Fund's yield, net asset value, and total return may fall as well as rise as a result of interest rate movements and the changes in credit quality of the investments. On redemption of units, an investor may receive an amount less than the original amount of the investment.

Risk Management

In accordance with the provisions in the Declaration of Trust, the Fund implements a risk management policy that applies the principles of Value-at-Risk (VAR). VAR is a measure of the portfolio's maximum potential loss and is computed based on price volatility and market value of the investment portfolio. The Fund's risk management policy prescribes a dynamic volatility band, such that if the volatility of the Fund's investments as reflected in the NAVpu exceeds the volatility band, adjustments are made for the collective interest of the participants. The Fund may also use financial derivatives to hedge the portfolio against market and credit risks.

BPI Global Philippine Fund is a Unit Investment Trust Fund (UITF) and not a bank deposit product. It is not guaranteed by BPI nor by the Philippine Deposit Insurance Corporation (PDIC). As such, units of participation of the investor in the UITF, when redeemed, may be worth more or worth less than his/her initial investment/contributions. Due to the nature of the investments, yield and potential yields cannot be guaranteed. Any income or loss arising from market fluctuations and price volatility of the securities held by the UITF, even if invested in government securities, is for the account of the investor. Historical performance, when presented, is purely for reference purposes and is not a guarantee of future results. The Trustee is not liable for losses, unless upon willful default, bad faith or gross negligence. For the purpose of lodging, clearing, settlement, and delivery of securities in the Fund, the Trustee is authorized to avail of the services of third party institutions such as but not limited to custodians which the Trustee may change or replace without prior notice to or approval from the investors. The Trustee will not be responsible for any loss or damage suffered by the Fund as a result of the third parties' willful default, gross negligence, or evident bad faith. Investors are advised to read the Declaration of Trust for the Fund, which may be obtained from the office of the Trustee, before deciding to invest.
